

Abdallah Abdelrhman Gandour

Data Analyst

abdallahgandour7@gmail.com • +20 1093188162 • Zagazig, Egypt

[LinkedIn](#) • [GitHub](#)

Profile

Detail-oriented and analytical Data Analyst with a solid foundation in turning raw data into actionable business insights. Proficient in building dynamic dashboards using Power BI and Excel, performing statistical evaluation, and data manipulation using Python (Pandas). Adept at data modeling and writing complex DAX expressions to drive data-informed decisions.

Education

Bachelor of Science in Computer Science at Faculty of Computers and Information, Zagazig University, Zagazig, Egypt **October 2023 - Present**

Focused on core computer science disciplines including Data Structures, Algorithms, Database Management Systems (DBMS), and Software Engineering. Actively applying academic knowledge to practical projects in Data Analysis, Machine Learning.

Skills

Data Analysis & Visualization: Proficient in cleaning, modeling, and analyzing datasets. Experienced in creating interactive dashboards, configuring DAX expressions, and adjusting Star Schema data models using Power BI and Microsoft Excel.

Web Development: HTML, CSS, JavaScript (DOM, ES6)

Projects

Employee Workforce Dashboard • [GitHub](#)

Employee Workforce Dashboard built in Excel analyzing workforce distribution, department allocation, salary insights, and top-paid employees using interactive KPIs and slicers.

Sales Analysis Dashboard • [GitHub](#)

Interactive Sales Dashboard built in Excel analyzing revenue, discounts, product performance, regional sales, and monthly trends using Pivot Tables, KPIs, and dynamic slicers.

HR Analytics Dashboard • [GitHub](#)

Interactive HR Analytics Dashboard built in Excel analyzing workforce distribution, salaries, performance, and overtime using Pivot Tables, KPIs, and dynamic slicers.

BMW Dashboard • [GitHub](#)

A dynamic Power BI sales performance dashboard for BMW, integrating customized ETL data pipelines, dynamic car/flag image URLs, and advanced YoY DAX time intelligence.

Sales and Profit Dashboard • [GitHub](#)

A corporate Sales & Profitability Power BI dashboard managing 2M in volume, featuring automated Power Query ETL pipelines, regional US geospatial tracking, and interactive quarterly category breakdowns

Finance Dashboard • [GitHub](#)

A comprehensive Personal Finance Power BI dashboard tracking dynamic income vs. expenses, featuring automated MoM DAX variance logic, granular recipient mapping, and interactive logotype branding.

E-commerce Sales Dashboard • [GitHub](#)

A global E-commerce analytics Power BI dashboard managing 3M in sales, leveraging dynamic product/flag URL pipelines, advanced MoM DAX growth tracking, and multi-continent geospatial distribution mapping.

Emergency Calls Dashboard Public • [GitHub](#)

An interactive, mobile-optimized Power BI dashboard analyzing 10K+ public sector emergency calls, featuring dynamic DAX time-grouping, incident heatmaps, and spatial mapping.

Hospital ER Dashboard • [GitHub](#)

Hospital Emergency Room (ER) Analytics Dashboard using Power BI, DAX, and Power Query. Features Star Schema modeling, MoM performance tracking, and patient demographics/wait-time insights.

Certificates

Data Analysis Professional Certification from Digital Egypt Builders Initiative (DEBI)

August 2026

An intensive professional certification program focused on advanced data analytics methodologies. Covered data cleansing, quantitative analysis, and interactive dashboard creation using Power BI, Microsoft Excel, and Python data science libraries (Pandas). Gained practical experience in designing data models and translating raw data into strategic insights.
